

## Automatic Batch-Sequence Wastewater Treatment System Application Questionnaire

Company		Contact	
Address		Phone #	
City		Fax #	
State & Zip		E-mail	

Product Manufactured			
US Centrifuge Representative		Date	

### Application Information

Wastewater source / type	
--------------------------	--

1.							
2.							

Water volume		EQ Tank	VOC	BOD	Metals	TSS	FOG
1.	GPM	GPD	Gal	PPM	PPM	PPM	PPM
2.	GPM	GPD	Gal	PPM	PPM	PPM	PPM

Current method of filtration and treatment			

Chemical Treatment Program	None	Floating	Suspend	Sinking	Other
----------------------------	------	----------	---------	---------	-------

Describe the process			
----------------------	--	--	--

Chemical Supplier		Chemical Rep		Phone #	
-------------------	--	--------------	--	---------	--

Current method of solids de-watering			
--------------------------------------	--	--	--

Sludge volume generated per day		Sludge dryness	% / wt	% / vol
---------------------------------	--	----------------	--------	---------

Sludge classification	Hazardous	Non hazardous	Other
-----------------------	-----------	---------------	-------

Sludge disposal method	Landfill	Incineration	Other
------------------------	----------	--------------	-------

Sludge disposal cost		\$ / month	\$ / year
----------------------	--	------------	-----------

Liquid classification	Hazardous	Non hazardous	Other
-----------------------	-----------	---------------	-------

Liquid disposal method	City sewer	Plant waste treatment	Other
------------------------	------------	-----------------------	-------

Liquid treatment cost per 1,000-gallons	\$	Sewer costs	\$ / month	\$ / year
---	----	-------------	------------	-----------

### Goals and objectives of potential system installation: (please circle all that apply)

Reduce sludge volume	Reduce maintenance time	Reduce maintenance labor	Increase production up time	Eliminate filter media costs	Minimize floor space requirements
Reduce sludge disposal costs	Reduce liquid disposal costs	Improve water quality	Reduce chemical costs	Reuse water	Minimize handling costs

Other desired benefits					
------------------------	--	--	--	--	--

Plant voltage	Available floor space and ceiling height
---------------	--

**Please fax completed survey to US Centrifuge @ 317-299-2284 or call 800-899-2040**
